

# **Which departments are involved in wind power in Luxembourg solar container communication stations**

## Overview

---

How will Luxembourg contribute to energy independence?

Luxembourg is already participating in cross-border renewable energy projects and is committed to expanding its role in collaborative projects such as those related to offshore wind energy in the North Sea and hydrogen corridors, to contribute to the EU's goal of energy independence.

What are Luxembourg's priorities for achieving the necp objectives?

The following are some of the priorities for achieving the objectives set out in Luxembourg's Integrated National Energy and Climate Plan (NECP): Self-consumption and sharing of renewable electricity. Targeted expansion of heat produced by renewable energy: heat pumps will become standard in new and renovated buildings.

Will Luxembourg expand offshore wind power capacity by 2030?

Within wind power initiatives, Luxembourg is collaborating on cross-border projects in the North Sea to expand offshore wind power capacity to 120 GW by 2030. within wind power initiatives, Luxembourg is collaborating on cross-border projects in the North Sea to expand offshore wind power capacity to 120 GW by 2030.

What are the 5 dimensions of Luxembourg's climate plan?

This plan has 5 dimensions in which Luxembourg can act: research, innovation and competitiveness. In order to achieve the objectives of the Paris Agreement, the national climate objective for Luxembourg is to reduce greenhouse gas emissions by 55% by 2030.
