

# **Wholesale 300wh power station in Albania**

## Overview

---

How many power stations are there in Albania?

This article lists the main power stations in Albania. There were 144 active power stations operating in the country in 2016. The table below lists only stations that have at least 10 MW of power capacity. As of 2022, there were 16 solar projects totaling 570 MW planned in Albania. ^ Spasić, Vladimir (2022-01-17).

Does Albania have a hydro power plant?

Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable. The total installed generation capacity has increased over the last few years because of new private investments in hydro power plants and more recently in small solar farms.

Does Albania have a power supply security problem?

Albania is a net importer of electricity; power supply security is a challenge. Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable.

How many hydro power plants are there?

The government has approved concession contracts for construction of more than 300 hydro power plants (HPP) since 2006 with capacities ranging from 1 MW to 320 MW. Most of the HPPs have installed capacity of less than 10 MW. During 2020, almost 20 new generation sources or close to 231 MW installed capacity entered generation.
