

# **Wholesale of 100kW Australian Solar Containerized PV Units**

## Overview

---

Where can I buy solar panels in Australia?

At PV Warehouse, you will find great products at competitive wholesale prices along with a friendly and helpful support team. PV Warehouse is a leading wholesale distributor of solar panels, inverters, and batteries across Australia.

Who is PV wholesale?

Affordable. Quality. Australian. At PV Wholesale, we are a locally owned and operated solar company dedicated to providing high-quality products at wholesale prices. Our mission is simple: to help every Australian power their home with affordable and reliable solar solutions.

What is a 100kW Solar System?

100kW solar systems are among the most popular commercial solar system sizes in Australia, as this size is the cutoff point for up-front incentives through the federal government. This article provides an overview of most of the key points that businesses need to know if they are considering a 100kW solar system for their commercial premises.

How much does a 100kW Solar System cost?

As per the table, the average cost of a 100kW solar power system as of August 2024 is \$87,920 including GST and the STC upfront rebate. The graph below – from our Commercial Solar PV Price Index – shows average price trends for 100kW solar systems since Solar Choice started keeping track in May 2014.
